

Akrochem Master Stream Nozzle Electric Pattern Actuation

STYLE 4040

Akrochem nozzles provide both dry chemical application and foam/water application. This flexible nozzle combines the effective reach of an automatic nozzle and the dry chemical/foam solution delivery capabilities to achieve the performance you expect from Akron Brass.

Features

The Akrofoam nozzles have excellent dry chemical delivery rate of up to 20 lbs/sec. Akrochem nozzles are designed for flowing from 250-1250 gpm at an operating pressure of 100 psi.

- Material: Pyrolite
- Pattern Control: Electric
- Flow 250-1250 GPM
- Inlet: 2-1/2" or 3-1/2" NH
- 12V Motor:
- 24V Motor:
