

Electrical Junction Box

STYLE EJBX

The Akron Brass Electrical Junction Box can be custom configured to meet your department's needs.

Features

The Akron Brass Electrical Junction Box is a must have on every apparatus, as it provides easy distribution of power for all your electrical needs on the fire ground. The Junction Box's durable design utilizes a heavy duty powder coated aluminum housing with a large integral handle and internally backlit faceplates. This makes the Electrical Junction Box easy to carry with excellent visibility, allowing easy electrical connection in the darkest conditions. Akron Brass Junction Boxes can be custom configured to meet your department's needs. Inlet options include: a 12" pigtail with a grounded NEMA plug configuration, or pre-wired for hard wiring the unit onto a cord reel or electrical cord set.

Outlet receptacle options include NEMA configurations for each of the four receptacles.
