## Fire Rescue Chainsaw Conversion Kit

### VentMaster™ Multi-Cut conversion kit to change a chainsaw into a fire rescue chainsaw.

The converted fire rescue chainsaw used by emergency personnel (fire brigades and other aid organizations) to create exhaust openings, to uncover pocket of embers during fire operations and to create rescue- or entrance openings in buildings and vehicles.

The special carbide chain of the Ventmaster™ Multi-Cut conversion kit allows cutting of different materials like insulating material, light metal plates (aluminum, copper, steel up to 1 mm), plastic materials, acrylic plastic, light bricking (pumice), tar board roofing cardboard, timber formwork and wooden beams with nails and screws, multi-layer glass.

- ▶ **VentMaster COBALT Guide Bar:** Features COBALT alloy inserts at the wear points. This alloy is extremely hard with excellent wear, galling and impact resistance.
- ▶ **Tool-Less KIS-40 Depth Gauge:** The simplest and most durable depth gauge design. Adjusts cutting depth from 1 cm to 15 cm (20 cm). Can be removed in seconds without tools for full length cutting.
- ▶ **Raptor Carbide Chain:** Features an open dual raker design to protect the carbide cutters and control the depth of cut. Will quickly cut through lightweight building materials.
