

Blazex Marine Stored Pressure Fire Extinguisher BXP2M - ABC Dry Powder

BXP2M ABC Dry Powder

The Blazex ABC 40 powder is a combination of Mono-ammonium phosphate and ammonium sulphate.

On Class A fires the particles fuse and swell to form a barrier which excludes oxygen and prevents re-ignition. On Class B fires the powder interferes with the chemical reactions, thus the flame ceases to exist.

ABC 40 powder is nonconductive and will extinguish Class A (carbonaceous) fires, Class B (flammable liquid) fires and Class C (flammable gas) fires.

Features

- Britannia offer a 5 year quality guarantee against material defects and workmanship
- Colour coded screen
- Brass nickel plated valve
- Pressure indicator gauge
- Main approvals and certifications as below

EN3

TECHNICAL SPECIFICATION

Model	Capacity (Kg)	Fire Rating	Full Weight (Kgs)	Temp Range	Operating Pressure (Bar) @ 20°C	Discharge Duration (Secs)	Discharge Range (M)	Diameter (mm)	Height (mm)
