## TRANSCON FR™ WILDLAND/BRUSH GEAR

FABRIC	Advance Nomex®: 60% Kevlar® / 40% Nomex®   rip-stop
WEIGHT	7 oz./sq. yd.   9 oz./ linear yd.
CARE	Machine washable

The best fabric available for Wildland Gear. This tough but lightweight blended fabric is woven into a rip-stop weave for resistance to tearing, providing an outer shell that will withstand the rugged environments. This intricately engineered fabric features superior thermal protection.

### WILDLAND ADVANCE NOMEX® JACKET 824

- 3 layered, high-rise collar to shield neck, chin and face with hook-and-loop flap closure for added protection
- Raglan sleeves for added mobility
- Large expansion pockets with drain holes
- Expansion radio pockets with drains and mic loop; can be used to carry flashlight and special emergency items
- Heavy-duty front brass Nomex® zipper and hook-and-loop flap closure with flame shield on underside
- Gusset cuffs with hook-and-loop wrist fasteners for exact fit
- 2" Scotchlite™ reflective Fire Coat Trim on pocket flaps and across back (lime-yellow/silver)

### NOMEX® IIIA JACKET 824KY

- Same features as 824NY but with a 6 oz. Nomex® IIIA fabric shell

### NOMEX® IIIA JACKET 824LKY
