

GATEWAYS

VW-DIS-D Wireless Display Driver

VW-DIS-D wireless display drivers for VW-GATE SWIFT® wireless gateways and GFANN-80 remote annunciators connect to the FACP via the ANN-Bus.

Overview

Feedback

VW-DIS-D wireless display drivers for VW-GATE SWIFT® wireless gateways and GFANN-80 remote annunciators connect to the FACP via the ANN-Bus. VW-DIS-D is required to display trouble and supervisory conditions that are specific to the VW-GATE and its devices. One VW-DIS-D is required for each VW-GATE in a system using the E3 or S3 Series control panel.
