

Keeping firefighters safe, effective & productive

Firecom 50 Series Wired

UH-51 UNDER-HELMET HEADSET

CONFIGURATION		
	Transmit	Receive
Intercom	Yes	Yes
Radio	PTT	Yes

The Firecom UH-51 wired headset delivers all the benefits of hands-free, full-duplex communication with your crew. Operating with a stand-alone intercom system or integrated with a mobile radio, the flexible design brings all crew members into constant communication. Behind-the-head band configuration with adjustable over-head strap easily accommodates use with helmets. Water-resistant and comfortable ear seals, extended operating temperature, and robust design make this headset ready for action in virtually any fireground environment.

Extended-range operating temperature

Rated from -40°F to +158°F, this headset works wherever you do

PTT radio, Full-duplex intercom

Red push-to-talk over radio button; full-duplex intercom and listen-only radio when button not engaged

Three-way adjustable boom

Precise microphone placement, comfort, and performance

Glove-rugged plug

Ergonomic connector is easy to grasp with a gloved hand and swivels to distribute strain at the jack connection

Memory foam ComLeather ear seals

Fit comfortably for hours while delivering 24db noise reduction

Two-year warranty, extendable to 5-year comprehensive service

Extend your two-year standard warranty to five years with the ComCare™ Service Program
