MSL-System

HD-Cap-System

Upper Material: Waterproof leather, hydrophobic, breathable (5,0 mg/cm²/h), 2.0 – 2.2 mm thick

Cut Protection: KEVLAR® protection against cuts certified with cut category 2 (24 m/sec.)

Inner lining: CROSSTECH® Laminat Technology

Non-woven insole: Non-woven insole absorbs sweat and moisture

Foot bed: Anatomically formed, exchangeable, washable, very good moisture absorption, dries quickly, Vario width fit system

Protective Toe Cap: Anatomically formed and well-padded protective toe cap

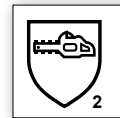

Protective Throughsole: Flexible protective throughsole

Sohle: Extremely slip resistant profiled rubber sole. Optimal performance in water, ice, and snow. Fullfills the highest demands of the European Standards EN 15090 + SRC

HAIX®-Climate System: Climate System with Micro-Dry lining at the top of the boot leg

HAIX®-MSL System: MicroSoftLight: Improved damping, extremely low weight due to the PU foam across the entire sole area, good cold/heat insulation

You will find the descriptions of the systems on the backside of this product description.

FL-Fit System

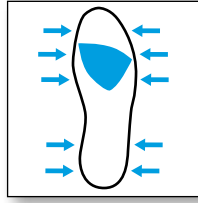

Fast-Lacing-Fit System

Patented Two Zone Lacing System for quick and optimal lacing adjustment and correct fit of the boot.

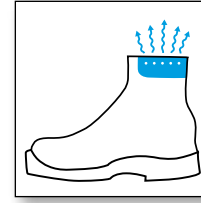

VW-Fit System

Vario-Wide-Fit System

With the development of 3 different insoles, boots can be adapted to fit individual widths.

Climate System

The climate system utilises the pumping action that is produced while walking and transports moisture to the ventilation holes.

WI-Grip System

Water-Ice-Grip System

Extremely slip resistant profiled rubber sole. Optimal performance in water, ice, and snow.

CT System

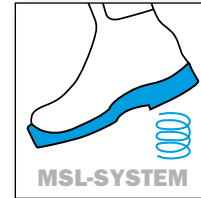

Comfort-Tongue System

Anatomically formed fleece tongue for optimum fit and outstanding climate comfort.

MSL System

Micro-Soft-Light System

Worldwide unique system with injected foam for enhanced shock absorbency and insulation against heat and cold.

ES-Out System

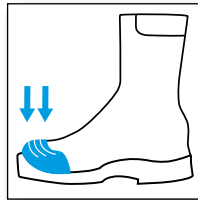

Easy-Slip-Out System

Special heel edge for easier doffing of the fire fighting boot.

HD-Cap System

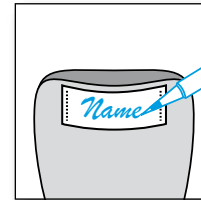

High-Durability-Cap System

Specially developed profiled rubber toe cap for long lasting durability.

ID System

Identification System

Nameplate, for identification of the boots.

3Z-Protector System

Three-Zone-Protector System

Safety Protection zones to prevent injury to the shin, ankle, and heel.

CO System

Certified Orthopedic System

Certified safety shoe for Springer orthopaedic inlays. Individual modification by the orthopaedist to the needs of the wearer necessary.

F2A

Feuerwehripiktogramm

Highlights the hazard protection function when fighting fires.

SR System

Sun Reflect System

Reduces the heating effect of the upper leather by direct sunlight. Sunlight is reflected by the leather, keeping the leather and the feet cooler.

WB-Protection System

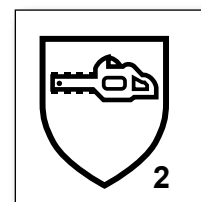

Liquid Bacterium Protection System

The Crosstech membranes prevent the penetration of fluids, viruses, and bacterium into the boot. This fulfills the highest standard demands for firefighters and emergency medical professionals.

CS-Protection System

Chainsaw Protection System

Kevlar inlay for chainsaw protection, chainsaw protection 2 according to EN 17249.
