

SUPPLIED AIR RESPIRATORS (SAR)

# 7800 Series Combination Supplied Air And Air-Purifying Respirator

## 7800 Series Combination Supplied Air and Air-Purifying Respirator

### Overview

Feedback

**The 7800 Series uses the same facepiece seal as the 7600 for superior comfort and fit. This supplied air respirator also features connections for filters and cartridges for emergency escape: and for entry and egress when unable to connect to the supplied air system.**

**Features & Benefits:**

- 100% medical grade silicone sealing area with dual flange for superior fit and comfort.
- Available with welding adapter. Latex free. Lens offers 200 degree field of vision.
- Nose cup standard. Reduces fogging and increases worker comfort.
- The 7800 Series is a combination continuous flow supplied air and air purifying respirator: ideal for use where entry: exit and escape from non-IDLH environments in air-purifying mode is desired.
