

PROTECTIVE SLEEVES

Spectra® Fiber Cut-Resistant Sleeves

Spectra® Fiber Cut-Resistant Sleeves

Overview

Feedback

Honeywell arm protection knitted with Spectr Fiber: a high performance polyethylene (HPPE) which is highly effective in preventing cut: slash and abrasion. Spectra Fiber is low-linting: which makes these sleeves an excellent choice for industries such as food processing: and other industries where product protection and cleanliness is important.

Features & Benefits:

- Perfect Fit - Spectra Fiber is 10 times stronger than steel on an equal weight basis and provides excellent protection from cut: slash and abrasion hazards.
- Spectra is filament fiber which decreases linting: which makes these sleeves an excellent choice for the food industry.

Specifications

OTHERS

Material

- Fiberglass Blend
- Spectra Fiber

Sleeve Type

- Knit
