# HONEYWELL UVEX SEISMIC®

The Uvex Seismic promises to be a strong addition to your protective eyewear program and one more way Uvex is helping you build a culture of safety in the workplace.

High-quality face-cushioning foam, flexible nasal pads and adjustable headband provide premium comfort and seal out dust and debris.

Simple clip makes it easy to switch between temples and headband as conditions or applications change.

## PREMIER PERFORMANCE

- Provides protection against impact, sun, wind, dust and airborne debris. With its superior coverage, Uvex Seismic sealed eyewear is ideal for dirty, high-particulate work environments such as grinding, chipping, shaving and sanding.
- Available with standard lenses and reading magnifiers to meet the needs of more workers.
- Standard lenses are offered in two frame colors—black and metallic blue—with a variety of lens tints and coating options to provide superior performance in most environments—both indoors and out.
- Specialized SCT-Gray and SCT-Low IR tints offer added protection from IR radiation hazards, such as arc flash, while offering true color recognition.
- Reading magnifiers are offered in a black frame with clear, anti-fog lenses in three diopter strengths.
- Meets ANSI Z87.1 (High Impact) standard when worn with or without cushion-lined frame.
- Certified to the requirements of CSA Z94.3 standard only when worn with cushion-lined frame.
- Assembled in the USA with US and imported components.

## LENS COATING OPTIONS

High-performance lens coatings combined with top and bottom indirect ventilation minimize fogging for clearer, safer vision.

Exceptional peripheral vision and coverage with wraparound 8-base dual-lens design.

- **HydroShield® Anti-Fog**  
Dual-action hydrophilic and hydrophobic anti-fog coating lens provides consistent 90X longer lasting fog-free performance than the majority of our other anti-fog coatings even after extended wear and repeated cleanings, and provides 2X greater anti-scratch\*
- **Uvextreme® Anti-Fog**  
Anti-Fog coating offers superior performance under the most extreme conditions and will not wear off after repeated cleanings. It is permanently bonded to the lens which helps it retain its anti-scratch, anti-static and UV protection properties.  
Available in SCT-Reflect 50 lens tint and Seismic Readers only
- **Anti-Scratch Hardcoat**  
Our anti-scratch hardcoat provides long-lasting protection from scuffing, scratching and a variety of chemicals.

### PREMIER COMFORT & FIT

- Soft and flexible nasal pads conform to a variety of facial profiles and minimize slippage. Soft, high-quality face cushioning and padded temple tips offer all-day comfort. Highly adjustable flame-resistant headband provides excellent fit.

### EXCEPTIONAL TOTAL-COST-OF-OWNERSHIP (TCO) VALUE

- Flexible design enables multiple uses. Uvex Seismic eyewear can be used with temple or headband (both included) and with or without cushioned frame as conditions change.
- Uvex® coatings perform exceptionally well in extreme conditions for longer lasting wear and lens life.

# UVEX SEISMIC® READING MAGNIFIERS

Uvex Seismic sealed eyewear is also available in a range of diopter strengths — +1.5, +2.0 and +2.5 — for workers needing increased magnification for reading, inspection, and other fine detail work. The wraparound design provides exceptional coverage while precise placement of the magnifiers allows for distortion-free vision.

## DIOPTRER CHART

Hold chart 14 inches from face to figure diopter strength.

If this line is difficult to read, use +1.5

If this line is difficult to read, use +2.0

If this line is difficult to read, use +2.5

## FAMILY OF SEALED EYEWEAR

Uvex Seismic eyewear comes with removable temples, headband and cushioned subframe. All Uvex® lenses offer 99.9% ultra-violet protection.

**Clear** — Ideal for most indoor work applications

**Espresso** — minimizes strong outdoor sunlight and glare

**Amber** — ideal for low-light applications where enhanced contrast is needed

**SCT-Reflect 50** — light mirror coating is ideal for varying light conditions

**SCT-Gray** — minimizes outdoor glare and offers true color recognition

**SCT-Low IR** — when peripheral IR protection is required

## HONEYWELL UVEX® SEISMIC ORDERING INFORMATION

SKU	FRAME COLOR	LENS TINT	LENS COATING
S0600	Black	Clear	Hardcoat
S0600HS	Black	Clear	HydroShield® Anti-Fog
S0601HS	Black	Espresso	HydroShield® Anti-Fog
S0602HS	Black	Amber	HydroShield® Anti-Fog
S0604X	Black	SCT-Reflect 50	Uvextreme® Anti-Fog
S0605HS	Black	SCT-Gray	HydroShield® Anti-Fog
S0609HS	Black	SCT-Low-IR	HydroShield® Anti-Fog
S0620	Blue	Clear	Hardcoat
S0620HS	Blue	Clear	HydroShield® Anti-Fog

## READING MAGNIFIERS ORDERING INFORMATION

SKU	FRAME COLOR	LENS TINT	LENS COATING	DIOPTR STRENGTH
S0661X	Black	Clear	Uvextreme® Anti-Fog	+1.5
S0662X	Black	Clear	Uvextreme® Anti-Fog	+2.0
S0663X	Black	Clear	Uvextreme® Anti-Fog	+2.5

### Packaging Information:

Ind. box, 10/stocker, 200/case

Case Weight: 38 lbs.

Case Dimensions: 29" x 15" x 24"
