

EURO CHARGER I

STANDARD SINGLE SYSTEM BATTERY CHARGER FOR EXPORT

MODEL # 091-90-12

The Euro Charger is a fully automatic battery charger designed to meet CE requirements. Ruggedly constructed with a single output, it float charges the battery and may be installed on the vehicle. Extremely precise voltage control maintains the charger output constant with variations in load or line voltage input. Active current limiting, limits the output current so as not to exceed its rated value when charging deeply discharged batteries or if the vehicle is started while charging.

This charger has two indicator options: Option 1 is a Bar Graph battery condition display, Part Number: 091-94-12E. Option 2 is a low cost LED Indicator, Part Number: 091-90-012-12, that shows when the charger is "ON" and when it is "CHARGING."

SPECIFICATIONS:

Input: 120 / 230 Vac, 50/60 Hz, 2.6 / 1.3 Amps

Input Fuse: 5 / 3 Amps, Fast Acting

Output: 12 Vdc, 12 Amps

Output Fuse (Recommended): 24 Amps

Charge Indicator: 0-15 Amps

Weight: 12 lbs

Warranty: 3 Years

ENERGIZED AND READY, WHEN SECONDS COUNT

12 AMPS FOR CHARGING VEHICLE BATTERIES

INPUT VOLTAGE SELECTABLE, 115 or 230 VOLTS AC

DESIGNED TO MEET CE REQUIREMENTS

AUTOMATICALLY CHARGES BATTERY

OPTIONAL REMOTE DISPLAYS

3 YEAR WARRANTY

OPTIONAL INDICATORS

BAR GRAPH DISPLAY

Model 091-94-12E

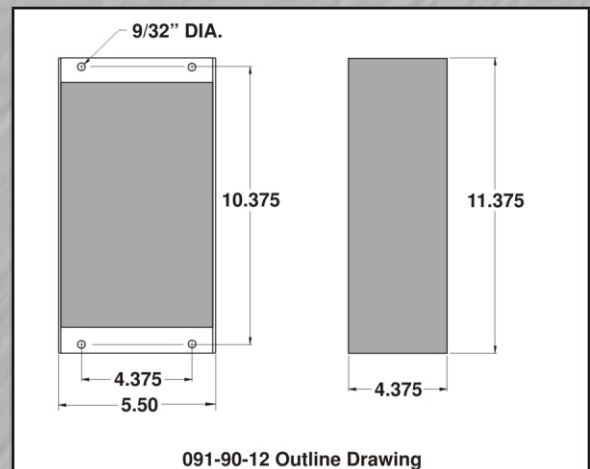

10 Element, Weatherproof Single Bar Graph battery condition display.

LOW COST LED INDICATOR

Model 091-90-012-12

LED Indicator shows when the charger is "ON" and when it is "CHARGING".
