PAUL CONWAY
HELMETS™

American Heritage™

Hand-crafted leather for rich traditional looks

Exclusive Features

- 1 **Leather shell** — state-of-the-art chromium tanning process to seal protective qualities and color and to deflect heat. Won't chip or burn like painted leather helmets.
- 2 **"LeatherGlas™" one-piece construction** — process bonds fiberglass composite between the outer and inner layers of the leather shell for superior strength and durability during extreme conditions.
- 3 **Suspension** — patented Center of Gravity™ adjustment system lets you set the center of gravity to your liking and keeps it positioned in place.
- 4 **Height adjusters** — provide three different headband height positions.
- 5 **Ratcheting headband** — adjusts from size 5½ to 9½. Headband is cushioned with foam and covered with leather for comfort and secure fit.
- 6 **Eye protection** — Choose from:
 - High temperature 4" APEC faceshield with thumbwheel adjustments
 - ESS goggles
 - Flip downs with goggles (can be purchased without goggles, but will not be NFPA compliant)
- 7 **Edge binding** — aluminum core edge binding is durable, but light.
- 8 **Chinstrap** — easy-to-adjust, quick-release chinstrap with postman's slide.
- 9 **Ear covers** — Black DuPont™ Nomex® brand fiber/flannel ear covers for added neck/ear protection. Other materials/colors available upon request as replacement parts.
- 10 **Shield holder** — hand-carved brass eagle leather shield holder.
- 11 **3M™ Scotchlite™ Reflective Material (2" x 2½" lime-yellow trapezoids)** — has excellent heat resistance and maintains brightness and color after heat exposure.

Colors — available in yellow, black, white, red, blue, orange, or natural.
