

EUROCHARGER III

AUTOMATIC BATTERY CHARGER FOR 3 BATTERY SYSTEM

FOR THE SPECIFIC NEEDS OF EMERGENCY VEHICLES

SUPPORTS PARASITIC LOADS

AUTO PRIORITISES THE FLATTEST BATTERY

LOW FREQUENCY – LOW NOISE

RUGGED CONSTRUCTION FOR VEHICLE MOUNTING

INPUT VOLTAGE SELECTABLE, 115 OR 230 VOLTS

DESIGNED TO CE REQUIREMENTS

MODEL 091-118

**HIGH
OUTPUT**

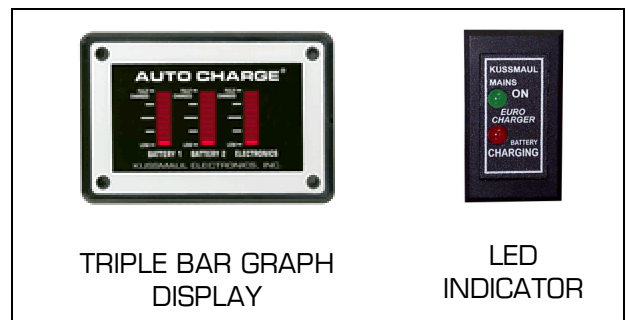

The Euro Charger III is a fully automatic battery charger, designed to meet CE requirements. Ruggedly constructed, it float charges the batteries, and may be installed on the vehicle.

Extremely precise voltage control maintains the charger outputs constant with variations in load or line voltage input. Active current limiting limits the output current so as not to exceed its rated value when charging deeply discharged batteries or if the vehicle is started while charging.

MODEL #	091-118-12	091-118-24
VOLTAGE IN	115V OR 230V AC 50/60HZ	
CURRENT IN	5.3A/2.7A	
VOLTAGE OUT	12V	24V
CURRENT OUT	18A	9A
INDICATOR	SEE BELOW	
WEIGHT	7.5KG	
OUTLINE	001	

Two unique remote displays are available as options for this charger. One provides a simple, two LED display. A green LED indicates that power is ON while a red LED indicates that output current is flowing from the charger. A second display, a triple bar graph, provides a graphic display of the charger output voltages.

OPTIONAL REMOTE DISPLAYS

TRIPLE BAR GRAPH
DISPLAY
