

AUTO CHARGE 1
FOR CHARGING SMALLER BATTERIES

1 AMP
@ 12 VOLTS

MODEL 091-31-12

- AUTOMATICALLY CHARGES BATTERY
- CANNOT OVER CHARGE BATTERY
- DESIGNED SPECIFICALLY FOR SMALL BATTERIES
- LOW RIPPLE OUTPUT

The Auto Charge 1 is a miniature, completely automatic charger designed to recharge or maintain the charge in batteries ranging from 5 to 20 ampere-hours.

A high gain linear control maintains the output voltage precisely and limits the output current to the rated value in order to protect both the charger and the battery. Low ripple voltage output (0.02V max) permits use of this charger in noise sensitive applications.

MODEL #	091-31-12
VOLTAGE IN	115 OR 230V AC 50/60HZ
CURRENT IN	0.5A MAX
VOLTAGE OUT	13.25V DC
CURRENT OUT	0-1 AMP. DC
WEIGHT	0.64KG
OUTLINE	008
