

ELECTRICAL HEALTH & SAFETY

PORTO METER PORTABLE ELECTRICITY METER

MODEL O92-101

- COMPLETE UNIT FITTED WITH CABLES**
- READY TO USE**
- DURABLE, LIGHT AND COMPLETELY PORTABLE**
- INBUILT L.E.D.SHOWS WORKING STATE**
- ARCTIC OUTDOOR GRADE CABLES**
- ALSO AVAILABLE WITH OTHER CONNECTORS**

The O91-101 Porto-Meter enables measurement of mains electricity consumed by emergency vehicles.

An example of this is when a vehicle is supplied by electricity from a third party; an allowance may be calculated according to the units measured by this unit over a controlled period of time.

The meter meets PTB approval to EN 62053-21 Precision class 1 (1%)

MODEL #	091-134-115-40
O92-101-230D	230V UNIT WITH 13A DURAPLUG
O92-101-230B	230V UNIT WITH 16A BS4343

RCBO-XX COMBINES RCD & BREAKER

MODEL RCBO-XX

- COMBINED RCD & BREAKER UNIT FOR**
- IN-VEHICLE MOUNTING**
- HANDY BULKHEAD MOUNT CASE**
- DOUBLE POLE FOR COMPLETE ISOLATION**
- HIGH QUALITY "WYLEX" BRAND**
- SUITABLE FOR 110 TO 230 VOLTS A.C.**
- INCORPORATES TEST BUTTON**
- WIDE RANGE OF AMPERAGES**

The RCBO-XX unit has been added to our range because this or similar is required by the relevant regulations to be installed within vehicles that have a.c. electrical supplies to them. This is to protect the occupants of the vehicle when entering or leaving the vehicle if there is an electrical fault to ground.

This unit is housed in a compact bulkhead mounting case that makes it easy to install and mount on a bulkhead or other surface.

The RCBO used is Wylex brand, which is a high quality make, for the best reliability. It also incorporates a test button so the unit can be checked periodically. Double pole for complete isolation in case of incorrect polarity supplies.

MODEL #	RCD RATING	BREAKER RATING
RCBO-10	30MA	10A
RCBO-16	30MA	16A
RCBO-25	30MA	25A
RCBO-32	30MA	32A
