

• MOBILE FIRE EXTINGUISHERS

NOHA mobile wheeled powder extinguishers are especially designed for the most demanding risks. Therefore, they are ideal for heavy industry, refineries, airports, oil platforms and onboard ships. The extinguishers are supplied with either ABC or BC high-quality powder. High quality and long duration give professional users the extra extinguishing effect to extinguish rather large fires. The extinguishers have wheels and main body manufactured in stainless steel to withstand the most demanding environments. Hold all necessary approvals for the respective areas of use. Wheel mark in accordance to directive 96/98/EC & CE Marked in accordance to EN 1866-1 (PED 97/23/EC)

NOHA 25HG/S

25 kg mobile powder extinguisher.
Contains 25 kg ABC ammonium phosphate powder.
Easy refill.
Stainless steel.
Aerosol propellant N2.
Working pressure 14 bar.

NOHA 25HKA/S

25 kg mobile powder extinguisher.
Contains 25 kg BC potassium sulphate powder.
Easy refill.
Stainless steel.
Aerosol propellant N2.
Working pressure 14 bar.

NOHA 50HG/S

50 kg mobile powder extinguisher.
Contains 50 kg ABC ammonium phosphate powder.
Easy refill.
Stainless steel.
Aerosol propellant N2.
Working pressure 14 bar.

NOHA 50HKA/S

50 kg mobile powder extinguisher.
Contains 50 kg BC potassium sulphate powder.
Easy refill.
Stainless steel.
Aerosol propellant N2.
Working pressure 14 bar.

Modell	Brann- klasse	EN-1866-1 effektklasse	MED ⊕	Effective discharge time	Total weight	Dimension L x W x H (mm)	Order number
