

Super Rams

The Most Versatile Rams Available

PHOENIX RESCUE EQUIPMENT offers the only full set of telescoping rams available. Two rams do the work of normal three or four ram sets, with more reach, more power, and better operating speed, all at half the system pressure necessary to power high pressure rescue tool systems.

25/60 Super Ram

The most versatile ram available, opening to over two times its closed length, the PHOENIX 25/60 Super Ram fits in tight spaces and has the power and reach needed for effective time saving heavy lifts.

14/27 Super Mini Ram

Ideal for lifting heavy loads in tight places, the PHOENIX 14/27 Super Mini Ram offers exceptional lifting height from a compact start.

25/60 Super Ram

Max. Spread Force: 39,500 lbs. (176 kn) Large stage
17,000 lbs. (76 kn) Small Stage
Open Distance: 60 in. (152 cm)
Closed Distance: 25 in. (63 cm)
Total Stroke: 35 in. (89 cm)
Weight: 55 lbs. (26 kg)

14/27 Super Mini Ram

Max. Spread Force 39,500 lbs. (176 kn) Large Stage
17,000 lbs. (76 kn) Small Stage
Open Distance: 27 in. (68 cm)
Closed Distance: 14 in. (35.5 cm)
Total Stroke: 12 in. (30.5 cm)
Weight: 29 lbs. (18 kg)
