C-C400 com-control unit – PTT for hazardous conditions

The Savox C-C400 com-control unit enables the use of your two-way radio in hazardous conditions. It has been designed especially sturdy and robust for use in many different applications, as well as being water-resistant.

The extra-large push-to-talk button ensures transmission even when used underneath gear and protective clothing.

The extra sensitive mushroom head button gives the user an additional option for reliable operation while being worn under chemical protection suits. ATEX version also available.

Designed for following uses and industries

TECHNICAL DATA

WEIGHT	120g (excluding clip)
SIZE	76 x 17mm
CABLE	According to application
