

716GC

The 716GC is a Positive Pressure Ventilation (PPV) fan that features a 16" cast aluminum airfoil blade and a commercial Honda gas engine.

Solid cushion tires makes for easy transportation and a step brake locks both wheels into position. The precision spun steel shroud is adjustable to four angle positions. A steel frame, full roll cage design and heavy gauge steel grill ensure safety and durability of the 716GC.

The 716GC is designed to compact dimensions that fit the tightest pumper compartments. It's portability and versatility make it an excellent choice for small to medium residential ventilation.
