

F 164M

The F164M is a 16" fan that produces a cooling mist that reduces air temperature through evaporation. Featuring a 1/3 horsepower electric motor, this mister fan is able to output 5200 cubic feet per minute and at only 41 lbs, it is easily portable.

Unlike other misting units that can only be used a few times, the F164M is tough as nails for years of reducing the effects of heat. Perfect for increasing comfort and reducing the effects of heat stress during extended summertime operations.

Requires 2 gallons per hour of water

Specs

Motor	132 Hp
HxWxD	19.75" x 18.75" x 13"
Fan Diameter	16"
Weight	41 lbs
Start....	2000 watts
Run....	700 watts
