

LOW-LEVEL STRAINER 6.0"F

A03HNX-JET

6.0" FEMALE W/1.5" F JET SIPHON

\$1220.00 List Price

FEATURES

High volume low-level strainer is made of hard anodized and powder-coated aluminum. Clog-resistant stainless steel filter has over twice as much flow area as a 6" hose. This keeps friction loss down to 0.5 psi (1" Hg) at 1500 gpm and reduces the potential for air vortexes to form as water sinks towards the 2.5" minimum usable depth. Oversized sealed ball pivot allows 45° range of hose angle without constricting the flow path. Optional Jet Siphon with 1.5" female hose thread substantially increases suction lift capability. Jet Siphon substantially increases suction lift capability and is also useful for tank shuttle, pump priming and dewatering with no need for a trash pump. Jet Siphon has 1.5" female hose threaded coupling that pivots freely in any direction to avoid hose kinks.

SPECIFICATIONS

Coupling Size	6" (150mm)
Coupling Style	Handle
Coupling Swivel	Non-Full Time Swivel
Jet Siphon	Yes
Jet Siphon Coupling Size	1.5" (38 mm)
Jet Siphon Coupling Style	Rocker
Jet Siphon Coupling Swivel	Full Time Swivel
Strainer Float	No
Weight	18.1
Connection Type	NH Female
Finish	Stardust Silver
Jet Siphon Connection Type	NH Female
