FEATURES

TFT's LDH Water Thief is a rugged valve with two valved discharge ports, each with a full 2.5" (64 mm) waterway. Maximum operating pressure is 300 psi (21 bar). Valve seats are field replaceable. Quarter turn valve handles operate with low force to move even under pressure. Automatic valve lock keeps its position while flowing at partial openings. Folding handles minimize storage space. Aluminum casting is hardcoat anodized and silver TFT Powder Coat finish inside and out for maximum corrosion protection. Optional adjustable pressure relief valve. Contact TFT customer service for configurations not shown.
