

FLIP TIP Series

FLIP TIP 1.5" F VALVE W/GRIP

FTGF34F1F

REAR-15/16" TIP-AUTO 75 PSI 60-150 GPM FIXED FOG TEETH

\$1161.00 Guaranteed US Price

FEATURES

Integrated with a high volume ball shutoff and your choice of G-Force combination nozzle, the FlipTip provides a single nozzle that offers both a hard-hitting smoothbore and high performance combination nozzle. The detent style ball shutoff allows positive operator control, choice of 75 psi operation, and bonded rubber fog teeth. To provide maximum stream performance all FlipTip models integrate a lightweight stream straightener directly into the rear coupling system. For high-rise operations, where debris can be an issue, or to maximize compressed air foam stream performance, the insert can be easily removed. Our standard 2.5" FlipTip models utilize an optimized waterway in place of this stream straightener. A special rear coupling system is available if a removable stream straightener is preferred.

SPECIFICATIONS

Pistol Grip	Yes
Rear Nozzle	15/16 inch (24 mm)
Pressure Mode	Single
Fog Teeth	Fixed
Operating Pressure	75psi (5bar)
Remote Control	No
Weight	6.5

ABOUT THE FLIP TIP SERIES

The FLIPTIP is two nozzles of choice combined into a single, easy to use, economical handheld nozzle. Choose from three different configuration types:

FLIPTIP® TIP Only

The Tip-Only Model is an ideal choice for an addition to any ball valve shut off. Integrating your choice of two smoothbore combinations, the FLIPTIP quickly and positively allows the initial attack team a choice of flows as well as outstanding stream performance.

FLIPTIP® with Integrated Ball Shutoff

Integrated with a high volume ball shutoff, the combination FLIPTIP provides a single nozzle that offers a choice of hard hitting straight streams. The detent style ball shutoff allows positive operator control and the rugged durability of Zytel polymer handles and pistol grip.

FLIPTIP® with Integrated Ball Shutoff and G-Force Nozzle

Integrated with a high volume ball shutoff and your choice of G-Force combination nozzle, the FLIPTIP provides a single nozzle that offers both a hard hitting smoothbore and high performance combination nozzle. Choose from Fixed, Selectable, or Automatic and a range of operational pressures and fog tooth designs.
