

**FLIP TIP Series**

**FLIP TIP 1.5\"/>**

**FTGF34F1S**

REAR-15/16\"/>

**\$1161.00 Guaranteed US Price**

**FEATURES**

Integrated with a high volume ball shutoff, your G-Force combination nozzle, the FlipTip provides a single nozzle that offers both a hard-hitting smoothbore and high performance combination nozzle. The detent style ball shutoff allows positive operator control, 100 psi operation, and spinning metal fog teeth. To provide maximum stream performance all FlipTip models integrate a lightweight stream straightener directly into the rear coupling system. For high-rise operations, where debris can be an issue, or to maximize compressed air foam stream performance, the insert can be easily removed.

**SPECIFICATIONS**

|                           |                    |
|---------------------------|--------------------|
| <b>Pistol Grip</b>        | Yes                |
| <b>Rear Nozzle</b>        | 15/16 inch (24 mm) |
| <b>Pressure Mode</b>      | Single             |
| <b>Fog Teeth</b>          | Spinning           |
| <b>Operating Pressure</b> | 75psi (5bar)       |
| <b>Remote Control</b>     | No                 |
| <b>Weight</b>             | 6.5                |

## **ABOUT THE FLIP TIP SERIES**

The FLIPTIP is two nozzles of choice combined into a single, easy to use, economical handheld nozzle. Choose from three different configuration types:

### **FLIPTIP® TIP Only**

The Tip-Only Model is an ideal choice for an addition to any ball valve shut off. Integrating your choice of two smoothbore combinations, the FLIPTIP quickly and positively allows the initial attack team a choice of flows as well as outstanding stream performance.

### **FLIPTIP® with Integrated Ball Shutoff**

Integrated with a high volume ball shutoff, the combination FLIPTIP provides a single nozzle that offers a choice of hard hitting straight streams. The detent style ball shutoff allows positive operator control and the rugged durability of Zytel polymer handles and pistol grip.

### **FLIPTIP® with Integrated Ball Shutoff and G-Force Nozzle**

Integrated with a high volume ball shutoff and your choice of G-Force combination nozzle, the FLIPTIP provides a single nozzle that offers both a hard hitting smoothbore and high performance combination nozzle. Choose from Fixed, Selectable, or Automatic and a range of operational pressures and fog tooth designs.
