SAFE-TAK/X-GUN COMB PKG - M-R1250-NJ

Part No: XFC-62-01 Details

SAFE-TAK/X-GUN COMB PKG - M-R1250-NJ
CROSSFIRE-BASE-MSTR-TIPS-STRAIGHTENER
Rated to 1250 gpm(4500 l/min), the Crossfire® is a portable ground monitor and/or deck mounted monitor. The Crossfire® monitor top with hand wheel provides elevation control from 90° to the safety stop at 30° above horizontal, and is capable of lower elevation angle when truck mounted. The STOW-AWAY portable ground base is available with twin 2-1/2" (65 mm) clappered inlet, or single large diameter inlet. Optional pressure relief valve and slow close valve (single inlet models only). Includes a set of quad stacked tips and your choice of a 1,000 or 1,250 gpm (4,000 or 4,500 l/min) Masterstream nozzle. "-NB" at the end of the part number designates Mounting Bracket is NOT included

Waterway Size	3.0 inch (76mm)
Operation Energy Source	Manual

PRODUCT SERIES OVERVIEW

- Task Force Tips Extend-A-Gun is available in either 12" or 18" extension lengths and offers either threaded or Victaulic inlet connections for simple and dependable installation in the apparatus. Locking in either up/operational position or down/stowed position. The built-in sensor is easily connected to a monitor raised indicator light on the pump panel or inside the cab of the apparatus. Multiple mounting brackets are available to simplify installation.
- Task Force Tips Remote Control Extend-A-Gun is available in either 3" or 4" diameters for efficient flows over 2000 gpm. Remote control versions can be easily operated from the TFT monitors fixed panel mount control, tethered control or TFT exclusive Radio Frequency control. Remote control models are include manual overrides for operation during an apparatus power failure.
- Task Force Tips Extend-A-Gun is produced from hardcoat anodized aluminum alloys and stainless steel components for maximum strength and durability, but light weight. All remote control models provide maximum crew effectiveness and safety while allowing the Tornado, Hurricane, Typhoon or Monsoon remote control monitors the highest level of fire stream efficiency.
