**\$5345.00 List Price**

**FEATURES**

Rated to 1250 gpm(4500 l/min), the Crossfire® is a portable ground monitor and/or deck mounted monitor. The Crossfire® monitor top with hand wheel provides elevation control from 90° to the safety stop at 30° above horizontal, and is capable of lower elevation angle when truck mounted. The STOW-AWAY portable ground base is available with twin 2-1/2" (65 mm) clappered inlet, or single large diameter inlet. Optional pressure relief valve and slow close valve (single inlet models only). Includes a set of quad stacked tips and your choice of a 1,000 or 1,250 gpm (4,000 or 4,500 l/min) Masterstream nozzle. "-NB" at the end of the part number designates Mounting Bracket is NOT included

**SPECIFICATIONS**

<b>Finish</b>	Fire Engine Red
<b>Horizontal Control</b>	Lock Lever
<b>Horizontal Movementdegrees</b>	270 total range
<b>Inlet</b>	Quick Connect Female
<b>Max Flow</b>	1,250 gpm (4,500 l/min)
<b>Operation Energy Source</b>	Manual
<b>Outlet</b>	2.5" (65 mm)
<b>Package</b>	Yes
<b>Remote Control</b>	No
<b>Vertical Control</b>	6" Handwheel
<b>Vertical Movementdegrees</b>	90 to 90
<b>Waterway</b>	3" (75mm)
<b>Weight</b>	0

## **ABOUT THE EXTEND-A-GUN SERIES**

The Extend-A-Gun series provides new capabilities for your deck mounted Master Stream device. For storage, it can be lowered to deck level (or even into a monitor well). On the fire ground, the monitor may be raised to its extended position 12 or 18 extra inches (30.5 or 45.7 extra cm) above the trucks pump housing. The Extend-A-Gun offers a hardcoat anodized finish, and built-in sensor for connection to “monitor raised” light or truck open compartment warning. It can be specified with new, or retrofitted to existing apparatus.

Models include a manual version with a 3” (75mm) waterway or a remote control version with a 3” or 4” (75mm or 100mm) waterway, and the VP version which offers a complete solution from TFT: monitor, nozzle, waterway, and valve! Deploy and stow operations are efficiently controlled by pneumatics and the inlet valve interlock system aids safe operations. Designed to flow up to 1,500 gpm (6000 L/min), choose from a variety of TFT monitors.
