EXTEND-A-GUN 12"- VIC X RLM OUTLET

Part No: XG12VL-RL

Details

EXTEND-A-GUN 12"- VIC X RLM OUTLET 12 VDC
RELAY

Waterway Size	3.0 inch (76mm)
Operation Energy Source	Manual
Extend-A-Gun Inlet	3 Inch Victaulic
Extend-A-Gun Outlet	TFT Code-RLM
Extension	12 inch (30.5cm)

Weight: 24.000 lbs (kg)

PRODUCT SERIES OVERVIEW

- Task Force Tips Extend-A-Gun is available in either 12" or 18" extension lengths and offers either threaded or Victaulic inlet connections for simple and dependable installation in the apparatus. Locking in either up/operational position or down/stowed position. The built-in sensor is easily connected to a monitor raised indicator light on the pump panel or inside the cab of the apparatus. Multiple mounting brackets are available to simplify installation.
- Task Force Tips Remote Control Extend-A-Gun is available in either 3" or 4" diameters for efficient flows over 2000 gpm. Remote control versions can be easily operated from the TFT monitors fixed panel mount control, tethered control or TFT exclusive Radio Frequency control. Remote control models include manual overrides for operation during an apparatus power failure.
- Task Force Tips Extend-A-Gun is produced from hardcoat anodized aluminum alloys and stainless steel components for maximum strength and durability, but light weight. All remote control models provide maximum crew effectiveness and safety while allowing the Tornado, Hurricane, Typhoon or Monsoon remote control monitors the highest level of fire stream efficiency.
