

**RADIUS Series**

**RADIUS 3" ANSI 150/DN80  
PN16/3" NPT INLET**

**Y35-D24A**

2.5" NH MALE OUTLET W/ 12 V STOW LIGHT

**\$5908.00 List Price**

**FEATURES**

**SPECIFICATIONS**

<b>Finish</b>	Stardust Silver
<b>Horizontal Control</b>	Alum Crank Handle
<b>Horizontal Movementdegrees</b>	Continuous 360
<b>Inlet</b>	3.0" ANSI 150
<b>Max Flow</b>	1,500 gpm (6,000 l/min)
<b>Oscillation</b>	No
<b>Outlet</b>	2.5" NH Male
<b>Remote Control</b>	No
<b>Valve Design</b>	No Valve
<b>Vertical Control</b>	Alum Crank Handle
<b>Vertical Movementdegrees</b>	-45 to 90
<b>Weight</b>	37.25

**ABOUT THE RADIUS SERIES**

The TFT RADIUS is an easy to install, deck mounted monitor that elevates above the top mounted equipment to get the stream where it counts. The above deck mounting is ideal for apparatus where below deck extension tubes do not fit. The RADIUS elevates by simply pulling the quick release knob and lifting until it's in the locked position. The monitor also includes the ability to flow while in the stowed position.
