

# WHITE SMOKE-AGENT

## The “Original” White Smoke-Agent

**Makes smoke testing operations safe, efficient and effective.**

TURBO-FOG® Thermal Aerosol White Smoke-Agents' pressurized 24 ounce liquid cartridge is designed for use with all TURBO-FOG® Thermal smoke generators. Our spill proof liquid smoke cartridge provides a constant pressure for less oil waste, denser more voluminous uninterrupted white smoke and greater production. No adding additional smoke bombs or pumping garden sprayers for additional test time.

Smoke Agent White is NON-TOXIC, NON-IRRITATING, NON-CARCINOGENIC, NON-CORROSIVE, LEAVES NO RESIDUE AND CREATES NO FIRE HAZARD.

TURBO-FOG® Smoke Agent White product leaves no residuals stains and has no affect on plants and animals. Our product is unaltered in all temperatures, though it is not advised to smoke test in fog or rain.

The smoke discharge can be adjusted for any required volume or density of smoke and can repeatedly be turned off or on. You can change the cartridge in seconds while the machine is still in operation reducing down time and improving operational efficiencies.

TURBO-FOG® Thermal Aerosol Smoke-Agent White Cartridges 24-fluid ounce capacity have a 4-year shelf life.
