
SmartFit binding for fire hose, 2"

Item no.: 1165525

The new "smart" SmartFit binding system from Esbach is the visionary solution for the binding of the future. Smartfit combines safety in use with extreme economic efficiency.

- high material strength
- much higher strength of the cover than required by DIN14811
- extreme economy by saving accessories and tools for binding
- simplest assembly by means of Allen key

2 PCS NEEDED FOR 1 HOSE

Material: Made of high-strength glass fiber reinforced plastic.

Integrated RFID tags as basis, optionally available for inventory.

Registered utility model protection.

Product:

The product will be supplied with two small rubber sealings per SmartFit binding. There are many different designs for the hose end, leaving a small possibility that the bindings can leak. The sealings will solve this.

Note: 1 set means that you get 2 pcs which make up 1 end binding, i.e. for 1 hose you will need 2 sets. Check the images to see what the set includes.
