Turnout Timers

The First-In Turnout Timer™ is used to assist firefighters in meeting the department's response time goals. The Turnout Timer provides a visual readout of the time elapsed since the call was received at the fire station.

Video Messenger Features

- Only the apparatus needed on the call appear on the screen.

- Interfaces with televisions using coaxial cable or RCA composite cable.

- One Video Messenger is needed for each television.

- In excess of 250 televisions can be used.
