**Additional
info**

Badger ADV-20 is a multipurpose stored pressure fire extinguisher suitable for Class A, B and C fires. It is ideally suited for addressing a wide range of DOT, USCG and commercial application market needs. It features square threaded valve design, heavy duty metal siphon tube, no-scratch hose strap as well as large pull pin.

Product profile

The Badger ADV-20 fire extinguisher is ideally suited for addressing a wide range of DOT, USCG and commercial application market needs. It has an ergonomically designed handle and lever for ease of use. The valve threads are indexed to accommodate and permit field replacement. Additionally, heavy square thread on valve is designed for added ease of installation.
